Report & fixes

qomvia.com

No Web Bot Auth support

POLISH

Signed, verifiable agents get treated like anonymous scrapers.

Do this: Publish /.well-known/http-message-signatures-directory, or turn on Web Bot Auth at your CDN.

AI fix prompt

Fix this AI-agent-readiness issue on https://qomvia.com.

Check: No Web Bot Auth support

What Qomvia measured on this site: No HTTP message signatures directory.

Why it matters: The HTTP message signatures directory lets a site verify signed agent requests.

Cost of leaving it: Signed, verifiable agents get treated like anonymous scrapers.

Do this: Publish /.well-known/http-message-signatures-directory, or turn on Web Bot Auth at your CDN.

Verify by re-fetching the page(s), then re-run the Qomvia scan for qomvia.com to confirm it passes.
